

INTERIOR DESIGN

The Interior Design course aims to provide students with the tools and knowledge necessary to be able to work independently in the interior design field.

By studying the history of interior design, materials, photo editing and drawing in 2D and 3D, the student will be able to conceive a space in all its elements, from the design stage to its creation.

There are no prerequisites to participate in the course and the program can be customized according to the student's needs.

The minimum enrollment is 4 weeks for the basic and semi-intensive course, 2 weeks for the intensive course.
