

PAINTING AND DRAWING

The Painting and Drawing course is suitable both for those who are approaching the Art world for the first time and must therefore learn the basics to be able to work independently, and those who want to perfect their technique.

The program of the course is very flexible and the student can choose to devote more hours to the study of drawing rather than painting and vice versa, or to study only one of the two disciplines.

PAINTING

The Painting course focuses on the teaching of **oil painting**, but at the moment of the enrollment the student can choose a different technique among the following:

Ancient Techniques (egg tempera and gold leaf), Contemporary Techniques (acrylics and mixed technique), Watercolor.

DRAWING

Within the Drawing course there are two classes: Life Drawing and Dynamic Drawing.

Life Drawing focuses on the representation of still life and the human figure, therefore there will be models for the design of the nude.

In this type of classes students will learn the chiaroscuro technique, essential for the work of every artist, and then they will have the chance to try their hand in the use of charcoal, pastels and graphic means.

Dynamic drawing provides the student with the tools necessary to develop autonomy in the representation. Particular attention will be given to the study of the human figure starting from volumes and anatomy, and of perspective. The chiaroscuro technique and the comic-style drawing will be taught as well.
