

SCULPTURE

The **Sculpture** course gives students the opportunity to learn the techniques that are necessary to work with clay or marble. Students will make “bas-reliefs” or sculptures in the round depending on their interests, and it will also be possible for them to make plaster casts of their works.

To attend the **Marble Sculpture** course it is necessary to register for at least 4 weeks as learning how to handle correctly the tools necessary for the processing of this material and carving in itself can require a long time of practice.

Students who want to learn marble carving techniques, will begin by working a completely flat surface, then they will go on to create a bas-relief, and finally they will be able to approach the sculpture in the round.

The school is equipped with a kiln where students can fire their clay sculptures with a small additional fee.

Blocks of clay and of high-quality marble from Carrara can be purchased directly at school.
