INTERIOR DESIGN

The course introduces students to the design of interiors, providing them the necessary skills to work in autonomy on simple or more advanced projects.

During the course students will learn how to organize spaces, choose colors and materials in accordance to the environment and the purpose for which it was created, select the correct lighting and forniture and place them in the environment using creative solutions.

Depending on their level and skills, students will use different 2d and 3d design programs.

STUDY

- Materials and styles

- Composition of spaces

- Furniture design and lights

PRACTICE

- Research and moodboard

- Technical drawing and drafts

- Project's construction and presentation

Every student is required to bring their own computer, where opensource programs will be installed during the course.
