

PHOTOGRAPHY

This foundation course will equip you with the skills to create distinctive meaningful images that express your personal way of seeing the world. The program can be personalized according to the student's level and requests.

The course is available in the Basic and Semi-intensive formula, with a minimum attendance of two weeks.

Classes are generally held twice a week, but the schedule depends on the teacher's availability and may change periodically.

Students are required to bring their own DSLR camera (preferably), but it's possible to attend classes using any type of digital camera that has manual settings.

GENERAL PROGRAM

The program can be personalized according to the preferences of the student. The topics chosen can be the following:

- Basics of a photographic camera: light-meter, aperture, shutter speed, depth of field, lenses.
- The eye, how image works
- Balance and Harmony
- Composition: the subject, what it means to you, what you want it to say about it
- Developing your own photographic style
- Architecture photography: fundamental principles, perspective, composition
- Reportage photography: observe, narrate
- Portrait photography: psychological aspects of the subject, lighting for high and low contrast
- Photography in studio: setting up of a photographic set, the importance of lighting, still-life, composition, chromatism
