FRESCO

Fresco in italian means "*fresh*", referring to the way the artist paints on a wet surface: the paint applied on a layer of fresh plaster becomes part of the wall surface once it's dry, making fresco an extremely durable type of painting, suitable for decorating entire walls and ceilings of churches and palaces.
The work starts with choosing an image to reproduce or the creation of a personal design which is then transported onto a portable support or directly onto the wall. Students will then prepare the colors from scratch using pigments and then paint dividing the work into "giornate" (a day's work) so that a fresh portion of the painting will be finished within the end of each lesson until the work is complete.

The program indicated can change depending on the duration of the course and the level of the student.
